

# St Andrew's Uniting Church

BOX HILL | MARCH 2014

**ARCHITECT:** Collier And Reid Pty Ltd

**BUILDER:** May Constructions

**BRITEX PROJECT MANAGER:** Mr. John Doolan

## BRITEX PROJECT ROLE

Britex was engaged by the building contractor in the redevelopment of the church premises for both the St. Andrew's congregation and the Hanbit Korean congregation. Our involvement was primarily in the commercial kitchen which aims to serve the needs of the community in food preparation, service and storage. The process for this project included generating shop drawings and consulting in fixture design to project managing and co-ordinating the production and installation of fixtures. Stainless steel works for this project included:

- Custom Stainless Steel Bench Tops
- Fire Rated Wall Cladding
- Stainless Steel Wall Panels
- Dishwasher Inlet and Outlet Bench Tops
- Custom Stainless Steel Bench Top with Integral Double Bin Chute and Lids.

(L-R) Stainless Steel Wall Panel with Fire Rated Wall Cladding, Commercial Kitchen Sink and Dishwasher Bench, Custom Stainless Steel Bench Top with integral double bin chute and lids.

## ABOUT

Recently the St Andrew's congregation and the Hanbit Korean congregation have been working on redeveloping the church premises in order to ensure they are well maintained, accessible and suitable for community needs into the future. The redevelopment project is the result of many years of planning.
