OUR SERVICES

When you engage a contractor for your building project, it is important to ensure you are being offered a complete and integrated solution; one that meets your specification in a cost effective manner.

It is equally important that high standards of integrity and customer service are maintained throughout the process. We place great importance on clear and honest communication with our customers for the duration of the project.

CONSULTATION & QUOTE

You will have direct access to an experienced design consultant.

- We will ensure your stated needs are clearly understood, and confirm this with a clear written summary of our proposed solution at the quotation stage.
- When applicable we will present you with alternative designs, material and finished which will enhance your project without derailing your budget.

DESIGN

- We will produce all shop drawings, and those required for building permits.
- We will organise all necessary compliance documentation.

CONSTRUCTION

- We will keep you informed of the project status, and co-ordinate with throughout construction and approval to maintain a smooth work flow.
- We maintain an orderly, modern factory environment fully compliant with all current OH&S regulations.
- We are members of the Master Builders Association, and comply with all the relevant Australian building standards.
- We employ an experienced permanent staff ensuring consistent high quality workmanship.
- We maintain consistent and qualified inspection of materials and components.
- Direct supervision is available by the designer for critical custom requirements.
- We minimize reworking and lost time by maintaining good co-ordination between multiple trades.

WHY BMB?

The combination of experience, passion and dedication of both the owners and staff of Britex Modular Buildings ensure that our customers receive the best products on the market.

We focus on offering our customers complete services by delivering high quality buildings on time. We listen to our customers and accommodate their requirements.

Our knowledge and flexibility allows us to build a variety of customized buildings, from intricate architectural designed commercial buildings to sophisticated industrial facilities.

Using the latest technology and the newest architectural materials we deliver high performance, modern structures. Our buildings can be designed to withstand the most demanding conditions including cyclonic environments.
