

# Upper Yarra Secondary College Upgrade - Stage One

YARRA JUNCTION | APR 2021

**PLUMBER:** ODM Plumbing

**BUILDER:** 4SQUARE Construction

**ARCHITECT:** Harrison & White

**BRITEX PROJECT MANAGER:** Britex VIC

## BRITEX PROJECT ROLE

Britex are proud to be involved in another successful VSBA School Upgrade Project at Upper Yarra Secondary College in Yarra Junction, Victoria. The completion of Stage One of the College's Upgrade and Modernisation Project saw the inclusion of almost 30 Grade 316 SS Acid Resistant Britex Laboratory Bowls for their state of the art science and technology facilities throughout.

A floor mounted 3.5m Vandal Resistant Sanistep Urinal was also installed in the Male Bathrooms complete with Smart Saniflush Sensor Flushing System, a water efficient and hygienic choice ideal for education projects.

(L-R): View of Britex Grade 316 Stainless Steel Laboratory Bowl installed in UYSC new state of the art science and technology rooms, A Britex 3.5 floor mounted vandal resistant Sanistep Urinal complete with FSM Smart Saniflush Sensor System, Additional views of Britex Lab Bowls - Almost 30 Laboratory Bowls were supplied throughout this project.

## ABOUT

Upper Yarra Secondary College is part of the Lilydale District and Yarra Valley Education Plan under the wider VSBA program, a statutory authority of the Government of Victoria which is responsible for the construction of new government schools and infrastructure improvements at existing schools. This plan aims to revitalise secondary education, deliver contemporary learning spaces and flexible indoor/outdoor spaces and state of the art science and landscape facilities.
