

Strathmore North Primary School

STRATHMORE, VIC | 2022

ARCHITECT K2LD

BUILDER 2Construct

PLUMBER JWC Plumbing

BRITEX PROJECT MANAGER Britex VIC

The upgraded art and library building at Strathmore North Primary School features new spaces for learning and provides extra facilities to allow for the enrolment of more students.

BRITEX is proud to have supplied a wide range of stainless steel sanitaryware and commercial sinks for this VSBA project. Designed by architects K2LD and built by 2Construct, we worked with JWC Plumbing for the installation of several fixtures throughout the build.

The art room features Britex Stainless Steel Art Troughs and our multipurpose Flat Rim Clay & Ablution Trough, ideal for any practical activity education classrooms. You will also find our Accessible Drinking Trough installed on the facade.

With the hygienic, durable and long wearing properties of stainless steel, BRITEX is the ideal choice for any application with high foot traffic.

BRITEX products featured in this project include:

- Britex Art Trough (TP8)
- Britex Flat Rim Clay & Ablution Trough (TCA1)
- Britex Accessible Drinking Fountain (TP6)
- Britex Cleaner's Sink (CSB)
