- Britex S.S. Accessible Hand Basin
- Britex S.S. Vandal Resistant Grandeur Hand Basin complete with radiused edge (HBGU)

(L-R) Britex Stainless Steel Accessible Toilet Pan with Raised Profile Actuator and In Wall Cistern, Britex Stainless Steel Vandal Resistant Grandeur Hand Basin, Britex Stainless Steel Accessible Hand Basin.

ABOUT

This modest building is sustainable, practical and poetic, embodying shelter and animated with life. The forms of the building were conceived to be experienced from the moving viewpoint of motorists, pedestrians, cyclists etc, its various elements shifting in relation to one another, creating a robust civic convenience of delight, beauty and local pride. The Middle Park Beach Amenities was a signature ESD project for the Council providing a bench mark of efficient design in public amenity buildings.
